MIPS Assembly Homework 01

CS 3810 – Computer Architecture

Instructions

Write a hello world program using MIPS assembly and the MIPS Assembly and Runtime Simulator (MARS).

Your program should output the string "Hello World! My name is <your name> and my major is <your major>!" With your correct name and major.

Notes

- The entry for printing a string in the system call jump table is 4.
- The assembler directive for a NULL terminated string is .asciiz.
